Kranthi Kumar Munjampalli

Software Engineer | 9+ years of experience in building high scale, efficient distributed systems | Mentor@scaler| Previously at Google, PayPal, Cisco and a start up. Looking for Senior/Staff level Roles.
Bengaluru, Karnataka, India

Summary

I am an experienced Senior Software Engineer with 9+ years of experience in designing and building high scale(10k qps), low latency(<1s) distributed systems. I have built services from scratch, done tech migrations(rx java to project reactor), DB migrations(hostDB to spanner).

Experience

Google
Software Engineer(L4)
November 2024 - April 2026 (1 year 6 months)
Bengaluru, Karnataka, India

- DC Maps Search: Enables efficient object search among datacenters.
- Worked on database migration from HoistDB to Spanner.
- Improved performance of query API which has the peak QPS of 4000
- Implemented pagination for ListBreadboards RPC: improved performance and reduced memory pressure on clients.
- Developed backend which powered the dashboards for kernel release management that automated the release process.

PayPal
Software Engineer 3
August 2021 - November 2024 (3 years 4 months)
Bengaluru, Karnataka, India

- Worked on Payment Planning and orchestration team.
- Implemented business initiatives like Moneypool and project LIME.
- Performed major migrations for microservices in payment execution layer from RxJava to project reactor.
- Optimised availability for services in Payment planning and domain.
- Optimised execution time by improving the execution leg for 2 step payments.

Cisco

2 years 1 month

Software Engineer(G8)
September 2020 - September 2021 (1 year 1 month)
Greater Bengaluru Area

- Developed and launched meeting broker service from scratch which enabled facilitating meetings in hospitals
- Wrote python scripts to optimize the hashicorp Vault script rotation sequence.

Software Engineer(G6)
September 2019 - September 2020 (1 year 1 month)
Greater Bengaluru Area

- Integrated Adaptive Cards in WebEx teams mac client
- Worked on Convo, Hydra etc microservices that power the webex teams 1:1 and group chats.

42hertz (start-up)
Software Engineer
June 2019 - September 2021 (2 years 4 months)
Greater Bengaluru Area

Hexagon PPM
Software Analyst
August 2017 - February 2019 (1 year 7 months)
Greater Hyderabad Area

- Worked on hexagon flagship product SmartMaterials, migrating its heavily used work flows from legacy to performance efficient oracle apex and Oracle SQL. Wrote efficient scripts to improve the handling of huge volumes of data and their relationships.

Education

National Institute of Technology Calicut
Master’s Degree, INFORMATION SECURITY · (2015 - 2017)

Kakatiya Institute of Technology & Science, Yerragattu Hillocks, Bheemaram, Hasanparthy, Warangal
Bachelor of Technology, Computer Science & Engineering · (2010 - 2014)

Narayana Engineering College - India
10+2, Maths, Physics, Chemistry · (2008 - 2010)

New sri satya bhaskara high school

10th · (2007 - 2008)
